IRB 250 has been designed for professionals seeking additional knowledge and further insight into some of the many hot topics related to human subjects protection programs. This program is taught by IRB/HRPP experts who are also recognized leaders in the fields of human research protections and research ethics. The IRB 250 will cover an array of highly practical strategies for enhancing an institution's IRB/HRPP operations via the use of best practices. Topics included in this educational workshop include:

- Exempt and Expedited Review Categories
- Unanticipated Problems and Adverse Events
- Informed Consent
- Children & Adolescents: Pediatric Research Subpart D
